## Motivation Letter

Dear Sir or Madam,

I have read your announcement, which interested me a lot. As I am currently looking for an opportunity, I would like to apply for this position that you are offering.

My profile corresponds to the description sought on the job offer. Indeed, I have a Master's degree in Mathematical Sciences: Big Data (Artificial Intelligent) and another Master's degree in Applied Mathematics: Modeling and Scientific Computing option. I was able to learn analysis and processing of statistical data, machine learning/deep learning models, Big Data, database management, classification, and writing statistical analysis reports.

Also, having worked as a data analyst for the Institute of Science and Technology of Bobo Dioulasso (INSTech Burkina Faso) and working with the research team of the IRSS (Institute of Research in Health Sciences) for the data collection, I have acquired strong skills in data analysis, teamwork, and confidentiality rules.

Previously, I did a research internship at the Muraz Center (Bobo-Dioulasso), where I worked on epidemiological research topics. I had to propose a clear and objective decision rule for cohort studies in the case of heavy censoring. My results allowed me to make an oral communication at the 1st Burkinabe Congress of Public Health and to publish a scientific article in "JP Journal of Biostatistics" in survival analysis.

With the Red Cross, I performed climate data collection and processing to predict climate disasters in West African Sahel countries (Environmental and Social Impact Studies). I also worked on crop yield prediction using machine learning methods.

Currently, I am doing data analysis and script automation for agricultural season monitoring and decision-making at the African Center of Meteorological Applications for Development (ACMAD).

Rigorous, versatile, determined, and especially passionate about Data sciences and artificial intelligence, I am firmly convinced that I can meet the expectations of your organization. Remaining at your disposal for any further information, I am available for an interview at your convenience.

In the hope that my application for this position will be successful, please accept, Madam, Sir, my most respectful greetings.
